

Gillian Haddon

I grew up in Middlesbrough and then studied veterinary medicine in Liverpool. I graduated in 2006 and started work in Stokesley straight away. I enjoy the variety of animals we see in mixed practice and am most happy working outdoors, when its not raining anyway!

I have two large dogs who need lots of exercise so I am often up on the moors behind Stokesley walking with them. My veterinary interests are varied and I currently enjoy running the practice “pet slimmers” clinics.
